THIS TITLE

Park County Weed and Pest Control District

SEPTEMBER 2016

Grass Seed Mixes Now Available From PCWP!

As a Weed and Pest District one of the many practices we encourage landowners is to manage their lands for desirable species including maintaining healthy stands of grass species. Weeds have a more difficult time becoming established if they have no place to spread their wings or roots! This also allows a landowner to control any noxious (or nuisance) weed species with herbicides should the need arise. Recognizing this important component of an integrated management strategy, we now carry several locally sourced seed mixes that are suitable for most areas of the county. The seed comes in 24# bags and should cover approximately 2 acres. The following mixes are currently available:

Irrigated Grass Pasture Mix - 24 Lb. Bag

- Fleet Meadow Brome
- Paiute Orchardgrass
- Climax Timothy

Native Rangeland Mix - 24 Lb. Bag

- Critana Thickspike Wheatgrass
- Secar Bluebunch Wheatgrass
- Bird's Eye Blue Grama
- Opportunity Nevada Bluegrass

Dryland Pasture Mix - 24 Lb. Bag

- Manifest Intermediate Wheatgrass
- Rosana Western Wheatgrass
- Carlton Smooth Brome
- Pryor Slender Wheatgrass

Alkali Tolerant Grass Mix - 24 Lb. Bag

- Shoshone Manystem Wildrye
- Jose Tall Wheatgrass
- Magnar Basin Wildrye

Please contact us for pricing. By managing for desirable species utilizing proper grazing techniques, watering, and fertilizing, most weed problems can be greatly reduced!

IT'S NOT TO LATE!

Fall is the perfect time to treat Canada thistle, Russian knapweed, and many other complex perennial weeds!

Please be a good neighbor! Remember landowners are responsible for weeds on their property. Cost share is available for effective herbicides to control most noxious weeds. Please contact PCWP @ 307-754-4521 for more information on how you can take advantage of this opportunity.

Thank You Firefighters! For Protecting Our Resources!

WORK. CLEAN. GO.

*Help Prevent The Spread of Invasive Plants and Animals.
Remember to Come Clean, Leave Clean.*

Help Prevent The Spread Of Invasive Plants And Animals.

- Arrive with clean gear.
