PARK COUNTY WEED & PEST CONTROL DISTRICT

Wyoming's wonderful wildlife is one of our State's most valued treasures. Healthy habitats support healthy wildlife. Noxious invasive plants are encroaching on these habitats. Hunters can play an important role in protecting our resources from these silent invaders. Do your part. Help stop the spread by following the tips below. Love the Outdoors? Prove it!

Here are five easy ways hunters can keep Wyoming wild & beautiful:

1. **Clean footwear, clothes, and packs, before and after exploring or hunting.**
2. **Clean horses' hooves and feed them certified weed-free hay before your adventure.**
3. **Clean trailers and recreational vehicles to remove mud, plants, and hidden pests before traveling to the trailhead.**
4. **Buy certified heat-treated firewood where you plan to burn it or gather it onsite when permitted.**
5. **Learn about invasive species in your area and report them to the nearest agency if found.**
